PART 5. PRE-CERTIFICATION EXPERIENCE

Experience is not an essential pre-requisite for level 1 and 2 examinations only. However, if such evidence is available at the time of examination, and it is a <u>mandatory</u> requirement that this be provided direct to the AQB on the PSL 30 Attached.

Industrial NDT Experience – the experience needed to acquire the skill and knowledge to fulfil the provisions of qualification in the appropriate sector, and which is gained under the supervision of Appropriately Qualified Personnel, in the application of the NDT method in the sector concerned.

Qualified supervision – supervision of candidates gaining experience by NDT personnel certificated under the PCN Scheme or by non-certificated personnel who, in the opinion of BINDT, possess the knowledge, skill, training and experience required to properly perform such supervision.

Appropriately Qualified Personnel - Individuals carrying out supervision of candidates for PCN certification holding relevant certification issued by a BINDT recognised certification body meeting the requirements of ISO/IEC 17024.

NOTE: The Supervisors' certificate(s) must be verified as the same level, sector and method and must be valid at the time the experience was gained.

This may include certification schemes other than ISO 9712, such as EN 4179 and SNT-TC-1A providing that this certification has been gained using external training/examination support provided by a BINDT approved organisation. The organisation must be a BINDT approved ATO, AQB and/or OA status. Please contact pcn@bindt.org if clarification on this is required.

Experience may be gained following level 1 and 2 examinations only and recorded on Form PSL/30. Once evidence of experience satisfying the above definitions has been accumulated, it is provided direct to PCN, together with an

		certification using form PSL/57C. Level 3 candidates – <u>must</u> have the required amount of NDT
		or to taking any examination.

CP27 ISSUE 2 DATED 1st APRIL 2021

CODE OF ETHICS FOR PCN CERTIFICATE HOLDERS

Individuals certified within the PCN Scheme must recognise that personal integrity and professional competence are the fundamental principles on which their testing activities are founded. Consequently, it is required that all PCN certified NDT personnel subscribe to a "Code of Ethics" designed to protect the integrity of any NDT processes and inspections in which they may become involved.

The integrity of NDT and CM processes and the people performing those processes is a fundamental requirement in ensuring that the inspections performed remain at the highest possible level in terms of quality and reliability. Consequently, BINDT and industry at large expect all PCN certified NDT and CM personnel to conduct themselves in an ethical and morally acceptable manner at all times whilst performing their NDT/CM duties.

It is a condition of PCN certification that certificate holders are expected, as a minimum to understand, acknowledge and abide by this code of ethics and the principles contained herein. It is a requirement that all PCN applicants and certificate holders acknowledge, by signature below, that they have read, understood and acknowledge this code of ethics and hereby agree to abide by them at all times whilst engaged in PCN certified NDT and/or CM activities.

I, the undersigned, undertake to:

- 1. comply with this code of ethics;
- 2. apply themselves correctly and to maintain high levels of integrity, honesty, skill and proficiency in the conducting of NDT
- undertake only those non-destructive testing assignments for which they are competent by virtue of their training, qualification and experience. i.e. to only perform inspections commensurate with their level of certification in the applicable test disciplines.
- 4. perform all inspections to the best of one's ability at all times and to resist any outside pressures that they consider may have the potential to affect the integrity, honesty, quality or outcome of any testing performed. Any such undue pressures should be reported to the employing management/supervision and BINDT.
- 5. only sign documents for work of which they have personal professional knowledge and/or direct supervisory control;
- 6. engage, or advise the engagement of, such specialists as are required to enable assignments to be properly completed;
- 7. conduct themselves in a responsible manner and utilize fair and equitable business practices in dealing with colleagues, clients and associates;
- 8. at all times, be aware of and uphold the provisions/ requirements of codes, regulations and standards under which they are working;
- immediately report to their supervisor/employer any perceived violation(s) of codes, regulations or standards. In the event that their supervisor/employer provides no satisfactory explanation or takes no corrective action, the certified individual shall report the situation direct to the British Institute of NDT;
- 10. perform their professional duties with proper regard for the physical environment and the safety, health and well-being of the public;
- 11. protect to the fullest extent possible, consistent with the well being of the public and the provisions of this code of ethics, any information given to them in confidence by an employer, colleague or member of the public;

- 12. avoid conflicts of interest with the employer or client, but when unavoidable, forthwith disclose the circumstances to the employer or client;
- 13. strive to maintain their proficiency by updating their technical knowledge as required to properly practice NDT in the certified methods and levels.
- 14. indicate to the employer or client any adverse consequences which may result from an overruling of their technical judgment by a non-technical authority;
- 15. not falsify nor permit misrepresentation of their own or their associate's academic or professional qualifications, training, experience or work responsibilities;
- 16. refrain from making unjustified statements or from performing unethical acts which would discredit the PCN scheme;
- 17. immediately report to the British Institute of NDT any perceived or known fraudulent use of PCN certification, including the use of forged or false PCN certification.
- 18. immediately report to the British Institute of NDT any perceived violation(s) of this code of ethics;
- 19. immediately report to the British Institute of NDT any attempt to pressure or force an individual certified under the PCN Scheme to violate this code of ethics;
- 20. inform their employer in the event that their PCN certificate is suspended, cancelled or withdrawn.

Failure to comply with the above code of ethics will be dealt with under arrangements for handling complaints and appeals (PCN document CP21 refers).

REMINDER: PCN certificate holders are reminded that they should be aware of the consequences that may arise from any failure to comply with this code of ethics including the consequences of in-service failures and any ongoing effect on the health and safety of persons, plant, equipment and the environment.

I acknowledge I have read and understand the PCN "Code of Ethics" and hereby give my commitment to abide by those principles in the performance of my NDT duties whilst certified by PCN.

IMPARTIALITY/CONFIDENTIALITY

By signing the relevant clauses (parts) above the Invigilator and Examiner are confirming compliance with the Impartiality and confidentiality requirements laid down in CP09 section 5.1.3 especially confirming that no conflict of interest exists between themselves and the candidate and that they have not actively participated in training of the candidate (in this examination method) within the preceding 2 years.

Note: AQB Organisations shall retain a copy of this form within the applicable exam record and they shall be made available on request during BINDT assessments

Issue 2 dated 1st July 2019 PSL 56B EXAM CANDIDATE ACCEPTANCE OF EXAMINATION RULES AND CONDITIONS.

This form is to be used for all PCN examinations and is to be completed and signed by the candidate and verified by the invigilator before commencement of the examination as acknowledgement of acceptance of the examination rules and conditions.

EXAMINATION RULES

Please read all instructions carefully and complete the form clearly using CAPITAL LETTERS

- 1. By signing below the candidate is acknowledging that the examination conditions are to their satisfaction before the commencement of the examination. In the event that examination conditions deteriorate to an unacceptable level during the examination, candidates must bring this fact to the attention of the invigilator who, will take appropriate action including suspension of the examination if necessary.
- 2. Only black or blue ink is to be used when completing examination papers. Any corrections made should be INITIALLED by the candidate. No correction fluid to be used on any examination part.
- 3. The use of programmable calculators is prohibited in examinations, as is the use of personal digital equipment with storage facilities - unless the equipment concerned is inspected by AQB staff before use in an examination to ensure that the candidate is not gaining an unfair advantage, and after use in an examination to ensure the continued security and confidentiality of examination materials
- 4. Candidates are required to initial beside any corrections they may make on examination papers.
- 5. Mobile phones and other electronic communications devices are a potential source of cheating and may disturb other candidates if they should be activated during examinations. Consequently mobile phones and any other electronic communications devices are prohibited during theory and practical examinations.
- Anyone suspected of cheating or colluding with other candidates will be asked to leave the examination and the Certification body shall be notified. This will preclude the candidate from attempting any further examinations as defined in the applicable Certification Body mandates (normally 12 months). and no results will be issued for any parts already completed
- 7. During and upon completion of the examination **NO** examination material is to be removed by any candidate. This includes any rough notes, sketches etc. that the candidate may have made during the examination.
- Once the examination has commenced, candidates found in possession of any inadmissible material shall be considered to have cheated and the examination will be terminated.
- 9. Any queries relating to the examination rules and conditions should be referred to the invigilator
- 10. I agree to not release any confidential PCN examination materials or participate in fraudulent test-taking practices

I understand and acknowledge the examination rules and conditions detailed above and undertake to abide by them

1. GENERAL RULES

- a. I am aware of the current rules regarding validity of certificates and renewals and I note that it is my responsibility to ensure renewal when appropriate and that reminders are not issued.
- b. I accept that any results notices issued will be invalidated if any fees in respect of this examination remain unpaid.
- I note that a results notice and a certificate (if awarded) will be forwarded to me and my sponsor (if applicable).
- d Due to the data protection act examination results will NOT be issued by telephone, e-mail or other electronic methods
- e. I understand that it is my responsibility to ensure that I have uncorrected or corrected vision capable of meeting the PCN requirement.
- f. I have read and understood the IMechE Argyll Ruane Safety Booklet and agree to abide by these rules during the examination and whilst on IMechE Argyll Ruane premises.

2. EXAMINATION CONDUCT

- a. Only black or blue ink is to be used when completing examination papers. Any corrections made should be *INITIALLED* by the candidate. No correction fluid to be used on any examination part.
- The use of a pocket calculator is permissible provided it does not permanently store programs, formulae or data relevant to NDT.
- c. Candidates are advised to leave any material, which may be considered as being used for the purpose of cheating, out of the examination room. If in doubt, please consult an Examiner/Invigilator to determine whether the material is admissible.
- d. Once the examination has commenced, candidates found in possession of any inadmissible material must be considered to have cheated and the examination will be terminated.
- e. Once the examination has commenced candidates shall not remove any material from the examination room including rough workings and sketches.
- f. Any candidate proved to have cheated will not be allowed to take any examination for a period of twelve months from the examination date and no results will be issued for any parts already completed.
- g. Cell phones are prohibited in examinations. If this causes problems, see the Examiner/Invigilator.

I have read and understood all of the information and am comfortable with the provided facilities.
